HF 8 channel Multiplexer ID ISC.ANT.MUX

Welcome to RFID

## SHORT DESCRIPTION

The 8 channel Multiplexer ID ISC.ANT.MUX-A facilitates switching between RFID antennas with an operating frequency of 13.56 MHz. With one Multiplexer several single antennas and gate solutions can be operated with only one reader.

Any oft he eight Multiplexers outputs can be assigned to both inputs by jumper adjustment.
In addition it is possible to connect further Multiplexers with Multiplexers already in use to raise the number of possible antenna connections.

The Multiplexer is controlled either via a digital input or the antenna cable connected with the reader.
An additional connection to the Multiplexer is not necessary which guarantees an easy installation even several Multiplexers are in use. The advanced communication between the reader and the Multiplexer allows direct switching to any output. Additionally, FEIG ELECTRONIC offers an 8 channel Multiplexer in a housing, an 8 channel Multiplexer Module and a 4 channel Multiplexer.

## Order descriptions:

ID ISC.ANT.MUX
HF Multiplexer (8 channels)
ID ISC.ANT.MUX.M8
HF Multiplexer Module (8 channels)
ID ISC.ANT.MUX.M4
HF Multiplexer Module (4 channels)

## Examples of use:

Multiplexer with gate solution
Multiplexer with single antennas

FEIG ELECTRONIC GmbH • Lange Straße 4 - D-35781 Weilburg

TECHNICAL DATA

| Dimensions (Wx $\times$ x ${ }^{\text {a }}$ | $182 \times 110 \times 90 \mathrm{~mm}$ |
| :---: | :---: |
| Housing | Plastic ASA, with screwed plexiglas lid |
| Weight | approx. 550 g |
| Protection class | IP 65 |
| Operating frequency | 13.56 MHz |
| Grommet | $12 \times$ screwed cable gland M16 $\times 1,5$ |
| Supply voltage | $12-24 \mathrm{~V}$ DC |
| Power consumption | maximum 4.0 W |
| Attenuation per channel | maximum 0.5 dB |
| Max. permissible switching power | 10 W |
| RF connections |  |
| 2 x input | SMA jack (50ת) |
| $8 \times$ output | SMA jack (50 ) |
| RF switch | electronic switch; switching speed < 1ms |
| Triggering |  |
| Reader external pulse generator | via RF input 1 digital input |
| Digital inputs |  |
| $1 \times$ opto koupler | maximum 24 V DC / 20 mA |
| Signal indicators | $1 \times$ LED per channel, $3 \times$ LED (Run / HF / communication) |
| Temperature range |  |
| Operation | $-25^{\circ} \mathrm{C}$ up to $65^{\circ} \mathrm{C}$ |
| Storage | $-40^{\circ} \mathrm{C}$ up to $80^{\circ} \mathrm{C}$ |

## STANDARD CONFORMITY

| EMC | EN 61000-6-3 |
| :--- | :--- |
|  | EN 61000-6-2 |
| Vibration | EN 60068-2-6 |
|  | 10 Hz bis $150 \mathrm{~Hz} ; 0.075 \mathrm{~mm} / 1 \mathrm{~g}$ |
| Shock | EN 60068-2-27 |
|  | acceleration: 30 g |
